

Govan Mbeki Water Quality Compliance

**No life without water**

The Govan Mbeki Municipality (GMM) fully support and strives to comply with legislations and regulations as prescribed by the Department of Water and Sanitation as per Water Services Act of 108 of 1997.

Table 1: Drinking Water Compliance from 01 July 2016 to 31 August 2017				
	Operational (%)	Microbiological (%)	Physical (%)	Chemical (%)
Govan Mbeki	97.55%	94.35%	99.9%	99.45%
Mpumalanga Province	84.30%	94.60%	99.3%	98.9%
National	93.5%	97.2%	97.40%	98.9%

From the period of 01 June 2016 to 31 May 2017 (**Table 1**), Govan Mbeki Municipality Drinking water compliance was excellent compared to Mpumalanga Province and South Africa National average and above for operational, microbiological, physical and chemical parameters as per South African National Standards (SANS : 241). For more information please visit my water website on [www.dws.za.dir\\_ws.DWQR/](http://www.dws.za.dir_ws.DWQR/)

Table 2: Waste Water Compliance from 01 July 2016 to 31 August 2017				
	Monitoring (%)	Microbiological (%)	Physical (%)	Chemical (%)
Govan Mbeki	80.26%	11.11%	55.85%	37.94%
Mpumalanga Province	12.48%	8.75%	28.31%	23.50%
National	42.26%	26.70%	38.29%	33.14%

From the period of 01 July 2016 to 31 August 2017 (**Table 2**), Govan Mbeki municipality wastewater compliance for monitoring, physical parameters and chemical was good compared to the provincial and the South African national average. The microbiological parameters non-compliance were due the process improvement intervention undertaken by the municipality, a significant improvement will be observed in the future analysis and compliance.
